Birthday Cakes

Students’ Birthdays and Healthy Choices

We acknowledge and value the celebration of a child’s birthday and a parent supplying a cake to share with classmates to mark the occasion. You are more than welcome to bring up a cake into classrooms. However we encourage parents to be mindful of:

1. Our school policy and that of Education Queensland to actively support and encourage smart and healthy choices for foods and drinks;
2. Some students may have behavioural reactions or allergic reactions to some foods (for example: high sugar, high colour & preservative, nuts);
3. Some of our students and their families choose not to celebrate birthdays.

TIPS

• Check with your child’s teacher BEFORE organizing your cake
• Individual cupcakes are easier to manage at school and are a great alternative to a larger cake that requires slicing.
